H. W. Brooks of Warren was in Montselier city court Tuesday evening on the charge of breaking the state laws rela-tive to the operation of automobiles by refusing to keep to the right of the center of the intersecting streets in Montpelier. The affair took place at the head of State street. He was fined \$5 and costs, which he paid.

A complaint was made Tuesday to the automobile department of the secretary of state that a driver named Herrick from the Central Power company of Montpelier had trouble with his auto mobile near Maple Corners Monday, that the car got away from him and went down a hill, tipping over. The report was that the accident was due to poorly equipped brakes.

Major Harvey E. Goodell and Auditor Benjamin Gates left this morning for Windsor, where this afternoon they are attending a meeting of the board of control relative to the erection of woman's dormitory. Some of the board want to place the dormitory about a mile from the present buildings, while others believing that it can be better managed while those who want it at the other named place contend that it would be more fitting to segregate the women in the place they approve. It is expected that the proper place will be decided upon this afternoon.

Mrs. Harry McIntosh, who has been in Burlington for a few weeks for treatment, is showing some improvement. A complaint of swimming in the reservoir from which Montpelier get its Granite lodge, No. 35, F. and water supply was made Wednesday by A. Over Regulation of Railroads Between Fiume, Triest and Vienna.

Paris, June 18 (By the Associated Press).-The conference commission on harbors and waterways is endeavoring to arrange for the regulation of railways connecting Fiume and Triest with Vien na, so that conditions will be satisfac tory to Italy, Jugo-Slavia and Czech-Slovakia. Some agreement is desirable before the Austrian treaty is completed, but the Indications are that the matter will be deferred for decision by the league of nations.

Most of the railroads in question are owned largely by French capitalists, Italy and the new states want the sections of the railroad in their territory placed under the control of the countries brough which they pass.
